RE: CHRONIC CARE MEDS

RD scanned

DR. VANDUSEN,

I'm on my last card of Levothyroxine for my hypothyroidism condition. I asked the Pharmacist if he had any more cards for me to pick-up and he said the prescription expired 12/18/07 and informed me that I needed to be scheduled for a Chronic Care Clinic with my physician in order to get my subscription renewed. Said Clinics have in the past been automatically scheduled, and it is unclear why CMS did not schedule me for a timely Clinic.

Moreover, the Levothyroxine was prescribed in part, so that my blood platelet levels could be maintained within the acceptable range needed for the initiation of interferon treatments for my Hepatitis-C condition, which hopefully will begin soon or in the near future.

If you could schedule me at your earliest convenience – that would be fine and I look forward to meeting with you in the near future.

Sincerely,

David Rush
